

Applications

Origa Rodless Cylinders @Work:

Milk Carton Transfer

ORIGA RODLESS CYLINDERS @ WORK: MILK CARTON TRANSFER

Problem

The Packaging and loading of milk cartons needed to be automated.

Solution

A P120 63diam 830mm stroke with 2 reed switches was used to push and unload milk cartons from the packing machine into the container.

Results

- 75% reduction in labor costs
- Reduced engineering due to no additional guides being necessary
- 280% increase of packing capacity from 4500 packs per hr to 12,600 packs per hr.
